## When You Place YOUR AD in the Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be WEAK? We believe there is only one business answer to this.

## WHEN YOU PLACE YOUR AD IN THE CITY DIRECTORY

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument--should it be WEAK? We believe there is only one business answer to this.

## When You Place Your Ad in the Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument should it be WEAK?—We believe there is only one business answer to this.

## WHEN YOU PLACE YOUR AD IN THE CITY DIRECTORY

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument--should it be WEAK? We believe there is only one business answer to this.

### When You Place YOUR AD in the Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be **WEAK**? We believe there is only one business answer to this.

### When You Place YOUR AD in the Directory

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be WEAK? We believe there is only one business answer to this.

**When You Place YOUR AD in the Directory**

You are not only talking to all persons looking for goods in your line, but you are backing up all the other advertising you are doing or have done. Many times every day people are looking you up in the directory who have seen your advertisement elsewhere. The representation in the directory is your closing argument—should it be **WEAK**? We believe there is only one business answer to this.

## Non-Smutting Typewriter Carbons

DU-RA-BUL BRAND is made in standard and light weights, in black blue, purple, red and green. A very high gloss, wave coated carbon with blue back. It is particularly noted for brilliant, clean, sharp writing, permanency and indelibility.

SUPREME BRAND is especially recommended for legal and commercial work. Its wonderful durability and permanency of color is without approach by any other carbon paper.

ALUMINUM BRAND is a dull-finished, evenly coated carbon, especially adapted for manifolding, making more copies at one operation than any other carbon manufactured.

EK-O-NOM-IC BRAND is noted for its indelible qualities, uniformity and durability.

**DU-RA-BUL** Ribbons Excel All Others

because of our special inking process. The ink is not merely put on or soaked into the cloth, but is squeezed through and into every bit of the fibre.

A typewriter is as good as its ribbon and a Du-Ra-Bul Ribbon is as good as can be made
